

### **REMARKS**

Applicant provisionally elects to prosecute species I: Figures 1-5 (sic), with traverse.

Claims 1-32 are now pending in the application (please note that this is contrary to the Examiner's indication that Claims 1-30 are pending). Claims 31 and 32 have been amended. Claims 22-30 are herein identified as withdrawn as pending a final determination of the status of these claims by the Examiner.

### **ELECTIONS/RESTRICTIONS**

The Examiner has required restriction to one of the following species under 35 U.S.C. § 121:

- I. Figures 1 - 6;
- II. Figures 7 – 13.

Applicant provisionally elects to prosecute species I, Figures 1 – 5 (sic) with traverse. Claims 1 – 21 and 31 and 32 read on the elected species. The Examiner is respectfully requested to reconsider the restriction at least with respect to Figures 7 – 13 as the dual actuator arrangement of Claims 1 – 21, 31 and 32 is relevant and germane to Figures 7 – 13, as well as to Figures 1 – 5. Figure 6 is the only Figure which shows an embodiment relating to Claims 22 – 30 comprising the single common actuator arrangement. Accordingly, it is believed that species 1 should include Figures 1 – 5 and Figures 7 – 13.

### CONCLUSION

It is believed that a full and complete response has been made to the outstanding Office Action and the present application is in condition for allowance. Thus, prompt and favorable consideration of this Amendment is respectfully requested. If the Examiner believes that personal communication will expedite prosecution for this application, the Examiner is invited to telephone the undersigned at (248) 641-1600.

Respectfully submitted,
